

Sachchitanand Yadav

Cyber Security Intern

+91-9621149819 | sachiy123456@gmail.com | Pune, INDIA | Experience: 0 Year 6 Months | <https://www.linkedin.com/in/sachiy>

Profile summary

Cybersecurity professional with a BSc in Cyber and Digital Science, currently pursuing an MSc in Cybersecurity with hands-on experience in VAPT, Web Application Security, and SOC operations. Skilled in Burp Suite, OWASP ZAP, Nmap, Nessus, Metasploit, Wireshark, and Splunk. Practical experience in DVWA, OWASP Top 10, vulnerability assessment, penetration testing, SIEM monitoring, and log analysis. Seeking an entry-level SOC Analyst, VAPT, or Cybersecurity Analyst role.

Skills: Burp Suite, WireShark, Autopsy, OWASP Zap, NMAP, Nessus, Nessus Scanning, Penetration Testing, VAPT, SOC Analyst, Cyber Security, Information Security, Digital Forensics, Threat Analysis, Threat Intelligence, Python, C Programming Language, PHP, Javascript, SQL, Log Analysis, AI, Incident Response Analyst, Incident Handling, SIEM, Kali Linux

Certifications

- Certified Ethical Hacker
- CCNA - Cisco Certified Network Associate
- Computer Hacking Forensic Investigator Certification
- Certified Cyber Security Professional Program
- Information Security & Ethical Hacking

Work experience

Cyber Security Intern – Sysap Technologies	Mar 2026 - Aug 2026
--	---------------------

- Completed CEH v13 training, demonstrating proficiency in ethical hacking techniques through comprehensive hands-on labs.
- Conducted vulnerability scanning, reconnaissance, and exploitation to identify and assess security weaknesses.
- Documented and reported findings following industry-standard penetration testing methodologies, enhancing remediation strategies.

Internships

Network Traffic Analysis , Penetration Testing ,CEH v13 Practical Lab Completion Reports – Sysap Technologies	6 Months
---	----------

- Conducted comprehensive network traffic analysis using Wireshark, identifying critical performance bottlenecks and enhancing data packet inspection accuracy.
- Collaborated with cross-functional technical teams to troubleshoot and optimize network protocols, boosting overall network efficiency significantly.
- Generated and presented detailed reports on network activity patterns, facilitating proactive measures that substantially reduced security incidents.

Projects

PortSwigger: Web Application Security, Testing, & Scanning	60 Days
--	---------

- Identified and mitigated SQL Injection, Cross-Site Scripting (XSS), and Cross-Site Request Forgery (CSRF) vulnerabilities, significantly strengthening the application security posture.
- Performed comprehensive web security assessments and penetration tests, enhancing expertise in vulnerability detection and remediation.

DVWA Web Application Security Testing	30 Days
---------------------------------------	---------

- Conducted comprehensive DVWA web application security testing to identify and analyze vulnerabilities including Brute Force, SQL Injection, Blind SQL Injection, Command Injection, Reflected, Stored, and DOM-based XSS, CSRF, File Inclusion, File Upload, and Weak Session ID.
- Performed thorough assessments of authentication mechanisms, session management, access controls, input validation, and security configurations to ensure robust application security.

Education

MS/M.Sc(Science) Cyber Security Pune University	2028
B.Sc - Bachelor of Science Cyber and Digital Science Pune University Grade - 8.94/10	2026
12th Uttar Pradesh, Other Marks - 54%	2023
10th Uttar Pradesh, Other Marks - 86%	2021

Extra-curricular activities

Capture The Flag (CTF)

Participated in hands-on CTF challenges to sharpen vulnerability exploitation and defensive analysis skills relevant to penetration testing and red teaming.

Achievements

Certifications

Completed Certified Ethical Hacker (CEH) and Computer Hacking Forensic Investigator (CHFI) certifications; earned CCNA Cloud and other cybersecurity program certificates.

Additional information

Hobbies: CTF Participation, Technical Blogging, Open Source Contribution
